Notes:

- The applicant is responsible for obtaining barricades and traffic devices for the street closure. Obtaining the appropriate type of barricades is of vital safety concern for our emergency personnel, as the barricades must be easily removable to allow access for these services. Furthermore, the appropriate barricades provide a safe (free of vehicle traffic) area for both adults and children within the closed area. A list of suggested companies that may be contacted for rental of barricades is attached. The use of inappropriate barricades can cause many unnecessary problems.
